

DR ASEEM R SRIVASTAVA

'Dr Aseem R Srivastava' is the Head for the Division of Pediatric Cardiothoracic Surgery at Artemis Hospital. He received his medical degree (MBBS) from GSVM Medical College, training in General Surgery (M.S) from King George Medical University, and training in Cardiothoracic Surgery (M.Ch) at GB Pant Hospital. He then worked as a Cardiac Surgeon in Delhi for about 4 years before leaving for the United States to work with few of the most prominent programs in Pediatric Cardiac Surgery. He received his training in Pediatric Cardiac Surgery at 'The Children's Hospital of Philadelphia' and 'The Children's Hospital of Pittsburgh of UPMC' before joining The East Carolina Heart Institute where he gained extensive experience in Minimal Access Cardiac Surgery and Robotic Cardiac Surgery. On his return to India, Dr Srivastava joined Artemis Hospital in May 2015. Dr. Srivastava brings with him vast experience in reconstructive operations in neonates, infants and children and is a strong proponent of early corrective repair when possible.
